## Request for Confidentiality

Date: Feb 18 <sup>th</sup> 2010	
Subject: Confidentiality Request for FCC ID:	( FCC ID-UD1RPT1900)
Pursuant to FCC 47 CRF 0.457(d) and 0.459 and In the subject FCC application be held confidential.	C RSP-100, Section 10, the applicant requests that a part of
industry that accomplishes simultaneous 60 megah available to "competition" would negate the advant protecting the details of the design will result in fin Permanent Confidentiality:	Exhibit Block Diagrams External Photos Internal Photos Operation Description/Theory of Operation Parts List & Placement/BOM Tune-Up Procedure Schematics Test Setup Photos User's Manual  developing this product and it is one of the first of its kind in ertz band width. Having the subject information easily tage they have achieved by developing this product. Not nancial hardship.
	crets and proprietary information not customarily released to
Sincerely,  By: Low Bosnyak CEO (Signature/Title <sup>2</sup> )	CARC BOSNYAK (Print name)
(Signature/Title)	(FIIII Haine)

Must be signed by applicant contact given for applicant on the FCC site, or by the authorized agent if an appropriate authorized agent letter has been provided. Letters should be placed on appropriate letterhead.

<sup>1 -</sup> The asterisked items (\*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."
